About Us

We are glad to inform you that, Vidyabharti Trust is a conglomerate of education institutions, driven by a single minded focus on imparting quality education to make students radiant. Vidyabharti Trust is professionally managed, multidisciplinary, and multifaceted oasis of Knowledge.

In the campus there are Degree Engineering College, Diploma Engineering, Pharmacy, MBA, BBA/BCA, B.Ed. college imparting technical-non technical education.

Since 2001, we have established "Civil Material Testing and Consultancy Services Cell" to carry out all civil material tests and for that we have got approval from

Govt. Of Gujarat. Our laboratory is well equipped with state of the art equipments and highly qualified staff. It has also got certification from NABL and ISO 9001:2008.

We are also rendering our services in environmental engineering field as an authorised Environmental Auditors by GPCB since last 6 years.

Our objective is to give practical knowledge to our students and provide material testing services for quality assurance to various Departments of Government of Gujarat and other private agencies.

Vision

To provide Quality work with optimum use of resources like man and machine power available at the Institute.

We are intending to create benchmarks for quality material testing and be leaders in

areas that we operate and look forward to long term relationship with our clients, owners, consultants and contractors by providing them real time cost effective quality solutions.

Consultancy Cell**

Mission

We believe to be the best, give our best and do our best. we provide value-adding services beyond our customer expectation.

We commit to put our whole mind, heart and strength in all we do our selves. We strive to excel with the best team work every day for better future prospects.

We are working with

- Excellence
- Innovation
- Customer Delight
- Teamwork
- Commitment

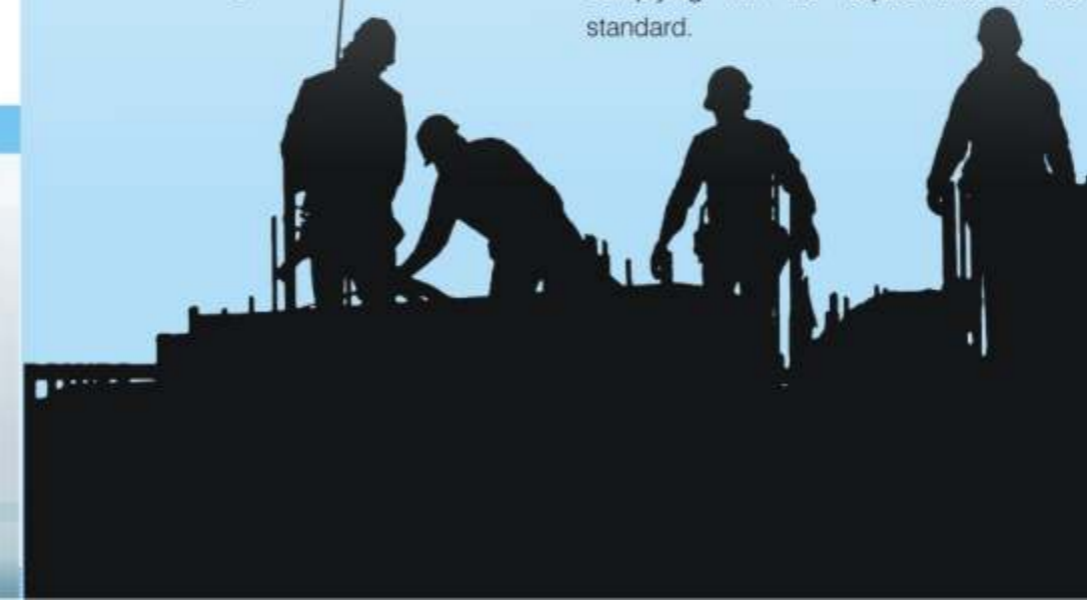

Quality Statement

We are committed to adopt a Good Laboratory Practices (GLP) and maintain the traceability to National and International Standards along with continual improvement to satisfy the customer in terms of high degree of credibility, integrity and prompt delivery of results.

We will always achieve and maintain

effectiveness of QMS by deploying competent employees and their motivation, maintenance of existing facilities, acquisition of appropriate materials, organising internal and external seminars/ workshops to drive continual improvement in the system and reviewing these on a periodic basis, thus complying with the requirements of the standard.
