

Report on Sports Week-2019

Games and sports is one of the extra-curricular activities of a college curriculum. It is an indispensable activity of every educational institution. It is indispensable in the sense – sport is a part of play and the inborn play nature of a child and the sports are inextricably link with each other. Without games and sports, college education will go handicap. As such, colleges organize sports obligatorily once as per the academic program in a calendar year. It is momentum duration of joy and jubilation and an enthusiastically awaited relaxing time interval from toils of boring bookish engrossment and endless tiresome homework at college and at home respectively. So, organizing sports at colleges is as important as that of class activity.

As continue S. N. Patel Institute of technology and research centre has arranged its 12th Sports week which was scheduled on 16th to 19th February-2020. There are various sports events carried out for boys, girls and faculty members. The schedule and details of sports events was as per the following.
