Event Name: “KITE DAY CELEBRATION”

Faculty Name: PROF.ASHISH PATEL,

Event Date, Time and Location: 13 /1/2023,vidyabharti campus

Brief Description of the Event:

Our Institute celebrated Makar Sankranti to inculcate the respect for diversity and appreciation of India's rich culture in the students by conducting a kite making activity on January 13, 2023 between 01:00pm to 04:30 pm. Students were enlightened about Makar Sankranti, a harvest festival that marks the arrival of spring. The festival symbolizes the beginning of the auspicious period of Uttarayan. Makar Sankranti is celebrated across the country with different names like Pongal in Tamilnadu, Makara Villaku in Kerala, Sukarat in Bihar and Jharkhand, Poush Sankranti in Bengal and Uttarayan in Gujarat.

The kite festival is one of India's most enjoyable events. In most regions of India, it is also known as Makar Sankranti. It is considered to be one of the most auspicious days in Hindu culture. The people pay homage to Lord Sun on this special day. A large number of people take bath in the sacred river Ganga. It is the day Bhishma Pitahmah has been waiting for, the day to depart from this earthly body. The kite festival is celebrated in a variety of cultural forms, with much faith, excitement, and enjoyment. Kite flying is also popular in China and Japan. It is now celebrated all over the world.

The students of our campus organized the Kites festival at our cricket ground. The major objective behind organizing this event was to make our students realize that along with study other extracurricular activities were also important which brings the happiness. Our Institute firmly believes in encouraging learning with enjoyment among students. Kite making is a great way to develop a child's fine motor skills, imagination and spark creativity. Every students and faculties including HODs flied the kites. All the students were participated and enjoyed the evening. Students and faculties made the memories together of this wonderful event.
